# Element Fender Specials

Bencros BSP Elements are designed for passenger pontoons, with a grooved, flat-top profile for safe boarding.

Internal steel plates and UHMW-PE fronts provide durable, low-friction protection for frequent ferry traffic.

Available in various sizes and colours to suit specific requirements.

Performance values quoted for BSP  
Special Elements are per leg, per metre

D (mm)	R (kN)	E (kNm)
125.0	59.3	5.5

Where exact performances are critical, optional testing is recommended. This is conducted in-house on pairs of elements to closely simulate service conditions.
