Towing Shoes

Towing shoes have a rectangular cross-section and a two-piece design. Unlike one-piece towing sleeves, they can be mounted after the rope is connected. The two halves clamp securely onto the rope with flush bolts. Beveled ends allow smooth passage over obstacles like railings.

Towing Sleeves

Towing sleeves have a cylindrical shape and are made in one piece, so they must be installed before the rope is connected. One end can be beveled on request for smoother movement. Made from high-grade polyurethane, they offer excellent offshore wear resistance.

DISCLAIMER
